Fikri Rivandi

Software Engineer @ digision.id | IoT & Robotics | Machine Learning
Pekanbaru, Riau, Indonesia

Summary

I'm Informatics Engineering student with expertise in algorithms and programming, including Java, JavaScript, PHP, and Python. Skilled in web development with HTML, CSS, and JavaScript, complemented by back-end technologies like PHP and NodeJS. Proficient in modern frameworks such as NextJS, Flutter, and Laravel for full-stack development.

Passionate about robotics and IoT, with hands-on experience in Arduino and image processing. Currently advancing knowledge in Machine Learning to create innovative, data-driven solutions. Dedicated to continuous learning and leveraging technology to drive impactful change.

Experience

PT Digital Decision Indonesia
Full Stack Developer
September 2025 - Present (11 months)
Pekanbaru, Riau, Indonesia

IKA SMAN Plus Riau
IT & Database
January 2025 - June 2025 (6 months)
Pekanbaru, Riau, Indonesia

PT. Perkebunan Nusantara IV (Persero)
Information Technology Intern
February 2025 - May 2025 (4 months)
Pekanbaru, Riau, Indonesia

Working on a real-world project for a state-owned enterprise (BUMN) has expanded my knowledge and experience in software development. I also learned to become an effective IT Support by resolving various information technology issues within the company.

Assist.id

Data Analyst Intern

January 2025 - February 2025 (2 months)

Pekanbaru, Riau, Indonesia

Engineering Robotics Club

Lead of Asset Management Division

January 2024 - January 2025 (1 year 1 month)

Pekanbaru, Riau, Indonesia

Serving as the Head of the Asset & Management Division at the Engineering Robotics Club (ERC) has trained me to be more detail-oriented and structured in planning and executing tasks. In addition to this role, I am also part of the competition team for KRSBI-B (Indonesian Wheeled Soccer Robot Contest).

Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka
Machine Learning Cohort

September 2024 - December 2024 (4 months)

Bandung, Jawa Barat, Indonesia

Deepening my knowledge in Data Science, Machine Learning, and AI through the Bangkit program. Completing the courses, submissions, and capstone project has helped me take meaningful steps forward in navigating the advancements of AI.

HIMAFI Universitas Riau

Full-stack Developer

October 2023 - November 2023 (2 months)

Pekanbaru, Riau, Indonesia

Developed a web application for "Pekan Raya Fisika IX," including a landing page, participant registration and login, a CBT system for exams, and an admin dashboard to manage questions, schedules, and administration, streamlining user experience and operations.

Education

The University of Riau

Bachelor's degree, Information Technology · (August 2022 - June 2026)

SMA Negeri Plus Provinsi Riau

Math Science · (July 2019 - March 2022)
